

Environment Minister for a Day

Consider ways to reduce environmental impact across the ACT

Part 1

You have been appointed the ACT's Environment Minister for a day. Here's your chance to make a difference! In the table below, write down two actions you would take for each of the following categories to reduce environmental impacts across the ACT.

- Waste
- Energy
- Carbon footprint
- Water

An example for each category is given below.

	Waste	Energy	Carbon Footprint	Water
Example	Introduce a Territory-wide composting program.	Provide financial support to help people install an electric vehicle charger at home.	Create a rewards scheme to encourage people to use public transport.	Make a law that all new houses must have water-efficient shower heads.
Action 1				
Action 2
